Genoa Underwriting Managers, on behalf of Safire Insurance Company Limited, offers a bespoke Professional Indemnity, Fidelity Guarantee and Third Party Impersonation Fraud Policy for Architects.

The Need

Professional negligence claims against Architects are on the rise and can be extremely costly.

With a number of risks Architects face such as, drafting without plans, relying too much on outlines, focusing on details too soon, failure to use line weights, failure to take note of ground conditions and make additional specifications as well as non compliance with building codes to mention a few, Architects should not be without professional indemnity cover.

While Architects are incredible designers with strong conceptual and mathematical skills, each project brings with it new challenges which could result in errors or omissions.
